BEFORE PLEVNA.

[By Cable to The Chicago Tribune.]

LONDON OFFICE OF THE CHICAGO TRIBUNE,

6 PALACE PLACE, STAND, OCT. 17—4 a. m.

—After nine days' incessant rain the weather has cleared up. Bulgarian operations will begin again as soon as the ground becomes sufficiently dry. There are reports of great suffering in both armies. The Generals of the Czar are making every endeavor to improve their line of communication with Roumania. The railway from Traleti to Sennica, which will complete rail transport to the Danube, is being pushed forward, and will be completed within six weeks from the present time. The greatest trouble now is the bad state of the roads, preventing the bringing of provender. Horses and men are supplied with food by means of light wagons, which can be hauled through the mud with much difficulty. The Turkish garrison of Plevna is reported by deserters to be in a precarious condition, and the stores and reinforcements introduced by Chevket Pasha are quite inadequate. No fighting is going on.

THE CORRESPONDENTS

have all been sent back to Bucharest by order of Gen. Todebien, now in charge before Plevna. Many of the English correspondents have returned to London.

ARMENIA.

A RUSSIAN VICTORY.

LONDON, Oct. 16.—A Russian official dispatch dated Headquarters Army of the Caucasus, Oct. 10, says: "Yesterday the Russians gained a great victory over Mukhtar Pasha, capturing many guns and prisoners. The Turks have been driven from the road to Kara."

A dispatch from Moscow dated to-day says that the Russian troops in the state of Kara, Monday the Russians attacked Mukhtar Pasha's new positions. The Caucasian grenadiers stormed Awihs Hill, forming the key to the Turkish position. A two hours' engagement ensued, resulting in the flight of Mukhtar Pasha.

THE FLIGHT OF MUKHTAR PASHA

in the direction of Kars or Erzerom. The Russians pursued. The Turks lost many prisoners, cannons, and rifles, and a quantity of provisions.

THE TURKISH SIDE.

An official dispatch received at Constantinople located the battle at Alaja-Dagh, which is probably the same as Awihs. The dispatch says the Russians attacked from four sides, and were driving back at the time the dispatch was sent off, and the final result of the battle was烹烹ately expected.

FLANKED.

LONDON, Oct. 16.—A correspondent at St. Petersburg telegraphs as follows: "The fate of Monday's battle was decided by a flank attack on Mukhtar Pasha's position from the north. The Russians captured some thousands of prisoners. The siege of Kars will commence immediately."

A CALL FOR AID.

LONDON, Oct. 17.—A correspondent with the Russian headquarters in Asia telegraphs from Karajal Monday evening as follows: "Gen. Laloroff, who, with twenty-seven battalions of infantry and forty guns, was recently dispatched on the turning movement from here behind Alaja-Dagh, to Awihs Hill and Vesi-Koy, telegrammed from Mukhtar Pasha, begging for reinforcements as Mukhtar Pasha, who was then with a superior force. Thereupon this morning, our troops began an attack on the Turkish positions, and after heavy cannonading on our left with the Alaja batteries we made a serious assault on Awihs Hill and redoubt. At noon the Caucasian grenadiers under Gen. Fleisman stormed the hill and redoubt, capturing three Krupp guns. The Ezozyk regiment occupied Alaja-Dagh, capturing the Turkish camp. The enemy retired in disorder in three directions, being cut off in the rear from Kars. The pursuit was sharp everywhere, and will be continued to-morrow. No news has been received from Gen. Laloroff."

BULGARIA.

PELEVA, Oct. 16.—The Turks have withdrawn their artillery from the second Gravitz redoubt. The Russians fear the redoubt is mine.

THE WEATHER IMPROVED.

LONDON, Oct. 15.—Several telegrams from the Turkish side report improvement in the weather on the Lom, and the prospect of an engagement near Kadifek. Heavy cannonading has recommenced in Shupka Pass.

GENERAL.

AUSTRIA NEEDS NO WAR LOAD.

VIENNA, Oct. 16.—The financiers who in January agreed to supply 25,000,000 florins at any time before the end of October, in view of possible Austrian mobilization, have already informed that the money will not be required.

AMMUNITION FOR TURKEY.

NEW HAVEN, Conn., Oct. 16.—One steamer is here ready to sail for Constantinople with 2,000 tons of ammunition, valued at \$2,000,000. Another steamer is preparing to load.

GERCH AND THE PORE.

LONDON, Oct. 16.—A Berlin correspondent states that the Pore is dissatisfied with the evasive answer of Greece to a previous communication, and has sent a second sharp note, protesting against the non-punishment of those who attempted to raise an insurrection in Tess-

aly and proposing a reduction of the Greek army.

SERVIA.

It is true that Servia has assured the Pore of its intention to strictly observe neutrality, but this is due solely to the fact that it has not yet finished preparations, and is waiting for a fitting opportunity to openly assume the offensive against Turkey, which will probably come with a Russian victory at Plevna.

FRANCE.

PARIS, Oct. 16—10 a. m.—The result of the election is unknown yet. The *Republique* claims returns from 804 elections, which give 317 seats to the Republicans, 107 to the MacMahonists, and in ten second ballots will be required.

Several Republican papers speak of the investigation of the elections must undergo in the Chamber. The *Stoc* urges the Chamber to use unsparing justice in this respect.

COMPLETE.

NOUN—Complete returns, except the colonies, that Stoc Republicans and 201 Conservatives have been elected. For second ballots will be necessary. The Conservatives returned 146 seats in the 102 seats in the Chamber. The Republicans retain 307 seats of the 363 who voted for the order of the day concerning the dissolution of the Chamber.

SONAPARTISTS.

PARIS, Oct. 16.—Among the prominent Bonapartists elected is Robert Mitchell, and among those defeated are De Mauprins and Prince de Arenberg.

CONSTITUTIONS TO PROTECT.

PARIS, Oct. 16.—The *Republique* has summoned all the Prefects of Paris to instruct them relative to the elections for replacing the retiring members of the Councils General.

DIED.

M. Theodore Barriere, the dramatic author, is dead.

COMPLEXION OF THE MINORITY.

The *Temps* (Republican), whose returns are not yet in, reports that the minority is composed of 90 Bonapartists, 45 MacMahonists, 44 legitimists, and 11 Orleansists.

GOREMAN ANXIOUS.

PARIS, Oct. 16.—The *Republique* has summoned all the Prefects of Paris to instruct them relative to the elections for replacing the retiring members of the Councils General.

CORRECT.

PARIS, Oct. 16.—The accuracy of the official returns which report 314 Republicans and 201 Conservatives elected is confirmed from the Republican side.

THE SENATE.

LONDON, Oct. 16.—A Paris correspondent telegraphs as follows: "It is believed that the total Republican vote is \$80,000,000 in excess of the \$70,000,000 personal influence of President Maclellan. The motion is disquieting. They are said to be resolved to use the unfortunate expression of the Duke Decazes in his late speech to disperse. It is known, however, that they can count on the continued support of the Senate. It is said that on the day of the session of the Assembly opens, before the Chamber of Deputies, the Senate can be organized. The Senate intends to show that it repudiates a dangerous and passive role, and to point out to the Cabinet what is expected from it in obedience to the will of the country."

LONDON, Oct. 16.—A Paris correspondent telegraphs as follows: "It is believed that the total Republican vote is \$80,000,000 in excess of the \$70,000,000 personal influence of President Maclellan. It is notable that the aridness of the Senate, in which his country seat is situated, returned a Republican by overwhelming majority, while all the candidates for the Senate were Liberal, Labour and Radical. D. Vial, whom he sought to recommend to the electors by visiting them during his various tours prior to the elections, had his name rejected, except the Due de Harcourt and M. Fourtou, whose success was certain from the start."

GREAT BRITAIN.

THE BREADSTUFFS TRADE.

LONDON, Oct. 16.—The *Mark Lane Express* weekly review says: "The English harvest is now finished, and the main bulk of the cereals in Scotland have been secured in good order, but in the northern districts there are still more to be seen. The potato crop must certainly prove a failure. Supplies of home-grown wheat in the country and at market have been sent to Roumania, which is reported to be in a precarious condition, and the stores and reinforcements introduced by Chevket Pasha are quite inadequate. No fighting is going on."

THE CORRESPONDENTS

have all been sent back to Bucharest by order of Gen. Todebien, now in charge before Plevna. Many of the English correspondents have returned to London.

WASHBURN.

A Hearty Welcome from His Galena Friends.

The Ex-Minister Briefly Reviews His Services at Home and Abroad.

Undying Hostility to all Subsidies—A Word of Praise for Gen. Grant.

Looking after the Germans in Paris—The Emperor's Thanks—Galena Reminiscences.

Special Dispatch to The Chicago Tribune.

GALENA, Ill., Oct. 16.—Notwithstanding the heavy rate which fell continually all the afternoon and evening, the people of Galena and surrounding country turned out in great numbers, and a grand and imposing demonstration was held in honor of our distinguished former Minister of War, Gen. Ulysses S. Grant, who had come to Galena to pay his respects to the Galena friends he had left behind.

Mr. Washburne, who was present, spoke as follows:

MR. CHAIRMAN, FELLOW-CITIZENS, LADIES AND GENTLEMEN: There are occasions in life when the ordinary language of speech is not sufficient to express the strong and powerful feelings of the heart, and the language of the tongue and the lips is not adequate to express the deep and abiding sense of the heart. I have been here to-day to pay my respects to the Galena friends I have left behind, and I have come to Galena to pay my respects to the Galena friends I have left behind.

Mr. Washburne, who was present, spoke as follows:

the Stand.

McCaffrey Goes Back on Clev--Hadn't
Been Very Intimate with
Him.

Counsel Will Begin to Persuade
the Jury To-Day.

The end draws nigh! All that remains to be
decided away from in front of the verdict in the
case of McCaffrey. The stand of the
counsel of the attorneys. The
verdict is all in, and the talking will begin this
moment. Upon the opening of the Criminal
Court yesterday morning, the examination of
John Walsh, Assistant Warden of the Poor-
House, was resumed, and the only thing he
testified to was that there were no shortages
as goods received at the Insane Asylum.

On cross-examination he said he never saw the
original bills or requisitions.

Assistant Superintendent of Police Dixon,
and Assistant Fire-Marshal Sweeney were
called, and testified that McCaffrey's character
was good, but they had not heard of his being
on the club-room, in order to contradict McCaffrey.

Q.—Do you know whether he was to all
of them? A.—I do not remember. I could
not identify any one of them I wrote to. Gen-
eral and the affidavits upon my own knowl-
edge; but something was done for me. I got it
from Mr. Hough and P. P. Periolat, em-

SOCIETY MEETINGS.

WEDNESDAY, OCTOBER 17, 1877.

CHICAGO MARKET SUMMARY.

The Chicago market was generally firmer yesterday, with a fair volume of business.	
Newspaper closed \$2.16 per bbl higher, at \$14.40	
for 5-cent and \$2.80 for January. Lard closed	
steady at \$8.45 for October and \$8.25 for	
January. Neats were steady, at \$14 per lb for	
loaf, and \$13.75 for 5-cent. Hams closed	
higher, at \$14.50 for 5-cent. Bacon was	
unchanged, at \$1.08 per pound.	

THE CONGRESSIONAL TOURNAMENT.

There are various indications that the	
present extra session of Congress will be	
merged into the regular session, and that the	
two will constitute, in the language of the	
circus-posters, a vast caravanary and colo-	
sal aggregation of all the equestrian and ac-	
robatic talent of American politics. The	
programme laid out by rival ringmasters in	
both Houses contemplates a grand display of	
oratorical gyrations, appalling flights of elo-	
quence, startling exhibitions of Graeco-Rom-	
an wrestling, sparring matches between Professors of the Manly Art of Invective and	
Vituperation of light and heavy weight, the	
Corporation of London is not extravagant,	
from one point of view. The most of our	
large cities are head and ears in debt,	
New York, the principal dinner-giver, being	
hopelessly swamped. The corporation which	
gave this \$150,000 dinner had an income of	
\$121,445,025, and the deposits, \$135,000,000.	
Since the middle of July the stock of coin	
had been reduced about \$17,000,000.	

THE SILVER QUESTION IN CONGRESS.

Congress has now convened. The	
Corporation of London is not extravagant,	
from one point of view. The most of our	
large cities are head and ears in debt,	
New York, the principal dinner-giver, being	
hopelessly swamped. The corporation which	
gave this \$150,000 dinner had an income of	
\$121,445,025, and the deposits, \$135,000,000.	
Since the middle of July the stock of coin	
had been reduced about \$17,000,000.	

THE BANK OF ENGLAND.

A correspondent at Boscobel, Wm., asks	
as for information concerning the meaning of	
the often quoted rate of discount of the	
Bank of England. The matter is a very	
plain one. The Bank of England is allowed to	
issue notes upon Government bond securities	
held by it up to a certain amount, say	
\$70,000,000. The Bank is also allowed to	
issue notes, pound for pound, to the amount of	
all the gold it has in its possession. It	
holds the greater part of the available gold	
from Great Britain. When a demand is made	
for gold for exportation, the Bank of England	
notes are returned to the Bank and the gold	
is withdrawn. This reduces the amount of	
the circulation of the Bank. The Bank not	
only discounts commercial paper itself, but	
it does a large business in rediscounting the	
commercial paper discounted by all the other	
British banks. To draw largely on its gold is	
to do but to dispose of the special subject	
—the deficiency in last winter's appropriations	
—and adjourn, but there is no law or	
practice coupling the action of Congress to	
that subject, nor anything prohibiting such	
other immediate legislation as may be required	
by the present condition of the country.

FINANCE AND TRADE.

Good Negotiable Paper in Demand—New York Exchange Par.

Record of Commercial Failures for Nine Months of 1877.

The Produce Markets Moderately Active, and Generally Firm.

Eggs Strong—Provisions Steady—Grain Tends Upwards—Freight Tame.

Stocks in Store in Chicago and Elsewhere.

FINANCIAL.

The banks are getting moderate supplies of paper. Country banks are still borrowing to enable their customers to carry grain and live stock. City customers are applicants for accommodation with which discount is 100 per cent. The balance of the offerings of the financial paper is not equal to the demand, and the banks have a considerable surplus which they would be glad to invest in that species of security. The currency movement has become lighter, and New York exchange is firmer, selling at par to 100 per cent discount between banks. Rates of discount were 200 per cent. The first-class call loans are negotiable at 5 per cent, and superior time paper at 6 per cent and upwards. There are no signs of fall activity yet visible in the loan market.

FAILURES FOR THE PRESENT YEAR.
R. G. Den & Co.'s circular exhibit of failures in the United States for the present year is the first for many months that affords encouragement to believe that the worst effects of the panic have passed away. The failures in the third quarter of 1877 are less in number and amount than for either of the two preceding quarters, and much less than for the corresponding quarter last year. The following table gives the comparative figures for three years:

First Quarter.

Second Quarter.

Third Quarter.

Fourth Quarter.

First Quarter.

AWFUL CARNAGE.

The Battles Before Plevna of the 12th and 13th of September.

Reckless Disregard of Human Life by the Russian Commanders.

Thousands of Their Troops Butchered in Hopeless Assaults.

The Russian Losses in the Two Days Estimated at 20,000 Men.

Correspondence London Telegraph.

PELVNA, Sept. 15.—Three days have passed since I write, bringing with them the two greatest battles of the campaign, and resulting in a Russian loss of 20,000 men, six guns, equipments, and as well as immense quantities of ammunition, rifles, and other effects.

On Wednesday, the 12th, about midday, a despatch came from the intelligence that the Russians were advancing from the northern direction upon our third line of defense, and also from the Lottcha road upon us. It was clear that a great battle was imminent, and that we must now fight for our very existence. With great coolness and calmness Osman Pasha gave his directions, sending men in each direction, as he thought they would be most wanted, and forwarding orders to the various commanders with regard to their plan of operations.

Finding that the attack on the Lottcha side would begin first, I hurried thither. To explain the exact position, I should say that on this side the Turks occupied a long ridge, the summit of which was covered with Bash-Bazouks, the redoubts and tanks of regular troops, and those latter, rising from the front advance, pushed back the enemy with as much fury as possible. Battalions of battalions came on, but all to no avail. The Turks swept them away with a withering fire which was irresistible, and all was going splendidly in front of the Bash-Bazouks when the Russian flank was filled with a fierce charge of the Russian flank advance, and, driving away their arms, ran out from the thickets in the greatest disorder, chased by the enemy, who, with a roar, were shouting like demons, and upon whom the Bash-Bazouks and tanks, the redoubts and tanks, upon each other. As we stood, too, we could see Enni Pasha's men sweeping round on the slopes on the two sides as fast as the men could run, and the Bash-Bazouks, who had gained ground every moment, and by half past 4 o'clock were reinforced by two fresh battalions sent by Osman Pasha to their assistance. The troops who had not been repulsed, and who had gained ground, were driving the Russians in with great rapidity. Slaughter was going on at this moment after a hideous fashion. The Russians, shouting the war-cry, and trying to cross the hill with the Turks between them, were shot down by hundreds. The ground was covered with the bodies of the terror-stricken Russians. They were going now to attack the lost redoubt.

I have witnessed many battle scenes, the memory of which leaves a strong impression upon my mind, and will, with memory last; but never till my dying day can I forget the overwhelming expanse of that dread and desolation it was to stand on that hill.

Pasha: his staff was grouped around. Behind them were hundreds of Turkish officers and soldiers who, with anxious eyes hour after hour, watched the progress of the battle, established which partly spread to the regular troops, and, despite all that could be done, it was still in progress.

How shall I describe the scene which ensued?

The Bash-Bazouks were fleeing down the hill, the Russians running in among the trees, shouting like demons, and out of a preserve. The road at the foot of the hill, crowded with hundreds of these terrified irregulars, was also thronged with women and children, who, with a roar, were shouting like demons, and fled in terror.

What had the Bash-Bazouks done for them?

They had been the strongest, and death which they believed awaited them if they fled, had been the strongest.

They had been the strongest, and death which they believed awaited them if they fled, had been the strongest.

They had been the strongest, and death which they believed awaited them if they fled, had been the strongest.
